Art is so beautiful, and is all around us, whether it's a drawing or a spectacular building. We need to learn to appreciate how wonderful art really can be. My biggest inspiration is Mrs. Shea, even though I had one full year with her she taught me so much and I feel she really believes in me. My parents and friends also support me and help me create mater pieces. My dad said that with my technology and art skills I could become a graphic designer, that sounds like a good plan to me!

Art tells a lot about a person by what they create and how they do it. It shows me what they like and what they think about themselves vs the world. It's not just one person it's everything around inspire me to create art. The people and thing around me are and have aromas that reflect something that can be shown in art. I want to continue to create new ideas and forms of art to reflect on the world and its different properties.

***Monochromatic Self***

**Mariel Hood**

**Medium: Paint (Acrylic)**

**8<sup>st</sup> Grade**

Art is important to me because it is a way to calm myself down and keep focused. By focusing on my art work, I can forget about any other worries. It clears my head. My mom inspires me to create art. She herself is a great artist as well, and I'd like to show art with her. I don't think I will try to make money from my art in the future. I will use it as a way to relax. However, I will continue to take art classes in High School and enter more competitions.

***External Personality***

**Tayden Hazelwood**

**Medium: Pencil and Pen**

**7<sup>st</sup> Grade**

**North Middle School**

***Nominated by Art Teacher: Mrs.***

***Gonyer***

To me art is important because I like to really express myself and make the viewer think about how I feel and what I like. Another reason why is simply because I want to be noticed by the world. The person who inspires me the most would be my mum, she was an artist, my older brother who taught me how to draw, my dad who helps me keep moving forward and lastly a number of comic book's artists like Brian Lee O'malie or Sam Bosma. First, I want to get recognized for my art, then I want to either go to a regular college or a school of arts. After that I want to become a comic book artist and eventually start my own comic book studio and clothing line.

***McKendry***

This photo is important to me because it represents the ending of summer and the beginning of fall. Fall is when the school year starts and it's all a new beginning. My dad is an artist. He sculpts and creates people struggling or making big decisions through symbolism. My sister is a college student and she draws and paints different scenery. I want to be a photographer and take pictures for many different people projects.

***Age in a light***

**Cassy Alm**

**Medium: Photography**

**8<sup>th</sup> Grade**

**North Middle School**

***Nominated by Art Teacher: Mrs.***

***McKendry***

Art is a way for me to express myself. When I feel bad, it's a way to let out my emotions. No matter if its doodling or a detailed drawing, it calms me. My mother is my inspiration. She is the reason I got into photography. With her being a professional photographer, I grew up around pictures and Photoshop. I am slightly interested in a career in Photography but I think it will end up a hobby.

**Fox**

**Parker Roman Shiley**

**Medium: Pen and Ink**

**11th Grade**

**Menomonee Falls High School**

***Fredrich***

Art is important to me because it lets me escape the negativity of our world. I can clearly show who I am as a person without getting judged. It has helped build my confidence, and give me a new perspective on many things. Art teacher Mrs. Chmielewski has inspired me to create art with her own art and teaching techniques. My mom with all of the pictures she takes, and Kelly Clarkson with her confidence and music. In my future I want to go into advertising and have a side job of photography. My goal is to inspire others and let them know it is okay to be themselves.

Art is important to me because it allows me to understand, learn and communicate with other people. I find inspiration in anything and everything, from music to movies, to nature. Art is important to me because it is an expression outlet, I can get all of my ideas out in a creative manner. I get a lot of inspiration for art from artists on YouTube as well as just the people around me. I either want to become an art teacher or keep it us fun hobby.

**Ragamuffin**

**Mackenzie Page**

**Medium: Acrylic Paint**

**12th Grade**

**Menomonee Falls High School**

***Nominated by Art Teacher: T.***

***Chmielewski***

Art is important to me because it is a creative outlet. Though taking actual classes is a recent endeavor, I have always found myself doodling on every paper I get and my love for creating art only grows. I am inspired by nature, other artists (especially those who create fan art for the books I love), and my family. Those closest to me know the challenges I feel and struggle with, but their confidence and humor keep me going. I want to continue challenging myself and creating new pieces, though I have no plans to work with art in a professional manner (family orders have begun though?).
